

Executive Board

Joni Jones

[JJ - LinkedIn Profile](#)

Experience: Joni Jones is a Director of Concrete Science at Braun Intertec's Chicago Laboratory where she brings extensive experience in project and laboratory management, along with a strong background in consulting for construction materials testing. Joni leads a team that collaborates closely with forensic engineers and architects, and the team's mission is to assist in conducting comprehensive condition surveys for existing structures. Her team's support through laboratory testing and consulting play a crucial role in decision-making and design processes for projects before construction or for concrete repair and restoration projects. Joni is also very active with the International Concrete Repair Institute (ICRI) since she serves as one of the Board of Directors as the Region 5 Representative. She is also the Vice-Chair for the ICRI Conventions Committee. In addition to ICRI, Joni is a member of the American Concrete Institute (ACI), and American Society for Testing and Materials (ASTM).

Statement: With a deep commitment to the mission of ICRI and a proven track record of professional excellence, I am confident in my ability to lead the chapter to new levels of engagement and growth. My goals are to increase interest and membership, have efficient meetings with centralized documents, improve digital presence and website, grow meeting and event attendance, and develop avenues for student involvement.

Victor Ligocki

[VL - LinkedIn Profile](#)

Experience: Director, Treasurer, and Current Secretary, Chair of the Golf Outing
And overall participation with many committees and on many events

Statement: I will work hard with the board and individual committees to get our actual membership numbers organized, grow membership, grow attendance, and work to increase the overall participation by engineers, distributors/manufacturers, and contractor partners.

Will Markunas:

[WM - LinkedIn Profile](#)

Experience: With over 25 years of experience in the construction industry, I have built a long resume spanning various sectors. For the past decade, I have held a held a senior role for structural restoration at Golf Construction. As a board member of the International Concrete Repair Institute (ICRI) for the past two years, I have actively contributed to the organization, serving on multiple committees and attending the Fall Convention in Denver, CO during my first year. In the past year, I chaired the Awards Committee and assisted with the management of the annual ICRI golf outing.

Directors until 2028:

Joseluis Alvarez

[JA – LinkedIn Profile](#)

Experience: Intern at WJE 2017, Thorton Tomasetti 2018-2022, Klein and Hoffman 2022-present

Statement: Prior to working as a structural engineer, I worked on the contractor side 2014-2015 doing concrete repairs projects on garage structures. A decade later, I still enjoy working on garages and would appreciate the opportunity to share my passion and knowledge with the local industry. I was also on the board in 2022/2024.

Rebecca Havel

[RH - LinkedIn Profile](#)

Experience: Becky Havel brings more than twelve years of experience in repair/rehabilitation, investigations, evaluations, and the development of repair designs for deteriorated structures. She has worked with multidisciplinary teams on cast-in-place, precast, and post-tensioned concrete, steel, steel joists, and timber. Her investigations have involved visual surveys, existing condition documentation, material sampling, and performing nondestructive testing.

Statement: I've enjoyed my time serving on the board, and would like to renew my board seat / participation for next year. It's been great to connect with and provide events for many industry professionals and I would like to continue getting young professionals interested and involved in the concrete repair field.

Brent Rogers:

[BR – LinkedIn Profile](#)

Statement: I am interested in staying involved with the ICRI Chicago Chapter Board to help support the growth, engagement, and technical knowledge of our local repair and restoration community. I value the role ICRI plays in advancing best practices, and I hope to contribute my experience and energy toward strengthening our chapter's programs and member involvement. I would be grateful for the opportunity to serve and support the organization's continued success for years to come.

Shawn Seaton

[SS – LinkedIn Profile](#)

Experience: Team-oriented project manager with a focus on advancing my career in the construction industry. Technical expert in concrete structures and concrete restoration. Committed to continually expanding my knowledge and skills in project management, specializing in self-performing activities. My involvement with ICRI began in 2023 as a chapter member, followed by service on the Publications Committee beginning in 2024. Prior to joining ICRI, I participated in industry organizations such as AGC, ASCE, and the ACE Mentorship Program. My undergraduate degree in Construction Engineering, along with my current role as a Project Manager at Golf Construction, has given me a strong technical foundation and a well-rounded understanding of our industry.

Statement: I am particularly drawn to ICRI because of the exceptional people and collaborative environment that set this organization apart. The mission to establish standards for concrete repair and promote education and outreach aligns closely with my long-term goal of creating a stronger, more

informed restoration industry. In this role, I hope to bring my financial background, committee experience, and collaborative approach to support the chapter's initiatives and serve its membership effectively. Thank you for your time and consideration. I would be honored to contribute to the continued success of the ICRI Chicago Chapter.
